

Meeting Log

Meeting 1:

Date: Thursday, 2/28/19

Location: Engineering Center

Topics Discussed: App Structure, Ideal languages, feature list

Decisions Made: Using HTML/Javascript for the front end of the app, and using PostgreSQL for the backend databases. Main feature list as of now includes location check in, class lists, profile page, friends lists, and study schedules.

Meeting 2:

Date: 3/7

Location: Engineering Center after Recitation

Topics Discussed: Who is doing what aspects of the project

Decisions Made: Harrison and Max will be doing the database backend. Chandler, Paramvir, and Mohammed are doing the front end. Luke is starting with integrating the map

Meeting 3:

Date: 3/15

Location: Engineering Center after Recitation

Topics Discussed: What we need to work on

Decisions Made: We decided to prioritize the front end and get it how we want it to look and then integrate the backend.

Meeting 4:

Date: 3/22

Location: Engineering Center after Recitation

Topics Discussed: Database structure and linking

Decisions Made: We discussed how we need to structure our SQL tables so that it's easiest to store all the info we need to make the app work. We also discussed linking the SQL databases to our html front end and how we are going to approach that.

Meeting 5:

Date: 3/29

Location: Engineering Center after Recitation

Topics Discussed: Should we use PHP instead of NodeJS

Decisions Made: We decided not to use PHP because we already integrated Node JS for the most part and didn't want to scrap part of the project.

Meeting 6:

Date: 4/5

Location: Engineering Center after Recitation

Topics Discussed: Learning Node

Decisions Made: During this meeting we all just tried to get on the same page on how to use node, and how to connect our database to our javascript files.

Meeting 7:

Date: 4/11

Location: Engineering Center after Recitation

Topics Discussed: Things to keep and things to ditch

Decisions Made: We decided to cut out friends and messaging aspects of the app to simplify it, and also allow us to finish on time.

Meeting 8:

Date: 4/25

Location: Engineering Center after Recitation

Topics Discussed: Cosmetic Design

Decisions Made: We wanted to make the buttons look a lot better as well as making the map on the homepage to be full page

Meeting 9:

Date: 4/28

Location: Norlin Library

Topics Discussed: Presentation

Decisions Made: We decided to show how to login and check in to the app in the demo in class. Also decided on what apps we wanted to rate and show on presentation
